- Q.5 i. What are the salient features of a good paragraph? **4**
 ii. Write a paragraph on *Pollution*. **6**
 OR iii. Write a letter to the Director of your organisation for concession in fee. **6**
- Q.6 Attempt any two:
 i. What are different forms of Oral Presentation? **5**
 ii. Explain the importance of audio visual aids. **5**
 iii. Differentiate Debate from Group Discussion. **5**

Enrollment No.....

Faculty of Engineering
 End Sem (Odd) Examination Dec-2017
 EN2HS01 Communication Skill-I

Programme: Diploma

Branch/Specialisation: All

Duration: 3 Hrs.**Maximum Marks: 60**

Note: All questions are compulsory. Internal choices, if any, are indicated. Answers of Q.1 (MCQs) should be written in full instead of only a, b, c or d.

- Q.1 i. No news good news. **1**
 (a) Were (b) Is (c) Being (d) None of these
- ii. He jumped the river. **1**
 (a) In (b) Under (c) Into (d) Below
- iii. Give opposite of *good* : **1**
 (a) Above (b) Land, (c) Unreal (d) Bad
- iv. Synonym of *discarded* is : **1**
 (a) Ample (b) Beautiful (c) Real (d) Rejected
- v. In acronym of *LSRW*, **R** stands for **1**
 (a) Reservation (b) Reading
 (c) Remembering (d) Recollection
- vi. An average college student reads between per minute. **1**
 (a) 200-400words (b) 50-100 words
 (c) 150-250 words (d) 500-1000 words
- vii. Amongst these which is not a complimentary close: **1**
 (a) Yours truly (b) Dear sir
 (c) Yours sincerely (d) Yours faithfully
- viii. Which is the correct way of writing date: **1**
 (a) 15. 12 17 (b) 15/12/ 17
 (c) 15 December,2017 (d) 15- 12-2017
- ix. Which is not a form of Oral Presentation: **1**
 (a) Debate (b) Letter writing
 (c) Interview (d) None of these

- OR iii. Differentiate: **6**
(a) Noun from Pronoun (b) Preposition from Conjunction.
- Q.3 i. Match the column **4**
Optimist Rude
Deep Pessimist
Polite Rough
Gentle Shallow
- ii. Give the meanings: Theist, Biology, Democracy **6**
- OR iii. Give the usages of the following homophones: **6**
(a) Tell, Tail,
(b) Week, Weak
(c) Write, Right
- Q.4 i. Write a short note on "Importance of Reading". **2**
ii. Explain golden rules of Précis writing. **8**
- OR iii. Read the passage and answer the questions. **8**

With arrival of winter the mosquitoes go in hiding but they still remain a menace that is tolerated by all and sundry, whether rich or poor throughout the year.

[3]

Using repellents made by various companies foreign or Indian that are flooding the markets in different brands and types assures all a safer sleep, protected from the mosquitoes' bites. But, in studies that have been carried out by experts, Neem oil would be a better mosquito repellent when compared to the market's repellents in terms of cost and impact on human health. The studies have revealed that domestic Neem tree, of a botanical name of Azadirachta indica, has amazing repellent property against mosquitoes' movements. The Neem oil, what is produced from the fruits of Neem tree, can provide a more than ninety per cent protection from the mosquitoes responsible for malaria, and, is effective on dreadful dengue carrier parasites too. The most attractive feature of Neem oil is that it is cheaper. Market based repellents like coils, mats, vaporisers etc. contain usually parathion or allethrin as main compound with insecticidal properties. But, the repellents of these synthetic chemicals are not proven as non—hazardous product due to toxins. The study of Industrial Toxicological Research Institute, Lucknow, has revealed that some serious health consequences have been reported after the use of synthetic repellents. Abnormal facial sensations, sneezing, sniffing, dizziness, fatigue, skin reaction etc. were the complaints that were recorded. The Malaria Research Centre (MRC), a premier body of government of India, says that 31 worst affect of these repellents is seen in the case of children. Neem oil, therefore, has been found to be the best solution to the mosquito nuisance and promising a phytochemical in malaria control.

According to the study, carried out by Dr. V.K. Dua and others, application of coconut. oil, with a mixing of just 2 per cent Neem oil in it, on the exposed body of human like face, hands and legs makes for safety from the mosquitoes' bites. Dr Dua is a scientist in a field station of Malaria Research Centre at Hardwar and data were taken in the study of Hardwar district.
