FOUNDATION OF THE UNIVERSITY

Medicaps University is one of the leading private universities in Central India. Since its inception, the institution has consistently aimed at creating an ideal ambience for budding technocrats and helps them to grow like true professionals. We have an optimal blend of academic brilliance and industry exposure. This has helped us in refining the candidature of our graduating students from the engineering, management, agriculture, commerce, science, pharmacy and arts field for the last 20+ years.

In this scenario of exponential growth in engineering education, our aim is to impart the best to the students through intellectually and professionally rich faculty members, training facilities and congenial educational environment, where students can bring out the best in themselves. The multidisciplinary approach equips students with knowledge and skills that are needed to solve complex problems and make effective and ethical decisions in any field of study. At Medicaps, we envision a place where minds are cleared, doubts are pacified and innovators are born. Internships, practical exposure and rigorous training give a strong foundation to help build your career. The University has produced countless talents who not only are celebrated names in their respective domains, but are also contributing to their nation's growth as successful professionals, bureaucrats, entrepreneurs and start-up leaders.

HOLISTIC LEARNING

Rich learning culture through co-curricular activities

Opportunities for students to work on concurrent projects

RICH ALUMNI BASE

Large alumni base excelling professionally

Leaders in top notch organizations

Actively associated in building networks and serving as mentors

CAMPUS HIGHLIGHTS

ACTIVE STUDENT LIFE

30+ student committees and clubs

Adds to professional and cultural growth of students

Promotes and develops leadership qualities

INTERNATIONAL COLLABORATIONS

The institute has collaborated with the following universities across the globe.

National Taipei University of Technology (NTUT), Taiwan

Asia University, Taiwan

Lunghwa University of Science and Technology (LHU), Taiwan

Cheng Shiu University (CSU), Taiwan

Woosong University, South Korea

DPU, Thailand

Southern Methodist University, Texas (USA)

RESEARCH, PROJECTS & GRANTS

A number of initiatives are being undertaken to help the university achieve its aspirations of becoming a renowned institution in the country such as fostering a culture of research and development, providing a supportive research environment, taking care of research-oriented employees and providing good infrastructure support. The statistical indicators are a testament to the university's dedication towards achieving excellence in academic and research domains.

MII FOUNDATION

MEDICAPS INNOVATION & INCUBATION FOUNDATION

MII Foundation is a full-scale incubator that prepares decentralized innovation for global use. To prepare the project for wide adoption, we assure full compliance, set up collaborations with global financial institutions, investment funds and governments. MII is a space where highly practical ideas that could potentially impact millions (or better, billions) receive the support they deserve. Our goal is to set up each MII project with a network, community, legal instruments, and business management toolkit sufficient for solving global challenges .

TRAINING & PLACEMENT

Over the years, Medcaps University has earned a reputation for its commitment to producing well-groomed professionals. Even during periods of economic uncertainty, the university's placement records have consistently remained among the best in the state, with graduates securing positions across a wide range of careers and industries. Medcaps University's talented pool of students are highly regarded by corporates across different sectors. They recognize Medcaps as one of the best institutions for acquiring fresh talent, their testimonials attest to this fact. Our alumni have proven their potential as valuable assets to their organizations, contributing to their growth with their ethical and professional performance.
